

The Grand Slam Award -So how do you go about qualifying for this prestigious award? It requires you to shoot the State Indoor, Field, Broad head, and Target, consecutively in one year. Example, if you shoot the Target in 2006 and the rest in 2007 and achieve champion in all four you qualify. This is open to Young adult to Master Senior. It is presented at the CBH/SAA Annual Banquet.

This State award was actually the brain child of Sandy McCain. Sandy proposed to the board an award to honor the Target archer. In her outline to the board, she included that the qualifications of this award require that a California archer must complete and champion in all official State tournaments in one year consecutively. Sandy herself had done exactly that as proof it could be done! She also wanted to see the development of camaraderie among fellow archers as well as promoting our beloved sport.

If your goal is to achieve this award, make sure you document each State event. That means, Where was the tournament held, Who was the host for that event, What was the event, and your score, this will make it easier to verify for the board.

"Cub Grand Slam" Qualifications for the Cub Grand Slam is that it would be from the State Indoor, State Field and State target, in one style, in a 12 month period.
